

CAMDEN ROCKPORT SCHOOLS POLICY

STUDENT WELLNESS

The Board recognizes that student wellness and good nutrition are related to students' physical and psychological well-being and their readiness to learn. The Board is committed to providing a school environment that supports student wellness, from healthy food choices to regular physical activity to building resilience. The Board believes that students who learn and practice healthy lifestyles in their formative years may be more likely to be conscious of the importance of good nutrition, mental health, and exercise as adults, practice healthy habits, and reduce their risk of obesity, diabetes, and other chronic diseases or mental health issues.

NUTRITION STANDARDS

Camden Rockport Schools will ensure that meals provided by its Food Services Program meet or exceed the nutrition standards established by federal regulations. Sales of foods and beverages that compete with the school lunch program (and/or school breakfast program) must be in compliance with the Board's policy EFE, Competitive Food Sales/Sales in Competition with the School Food Services Program. Candy will not be given as a reward in any school setting.

ASSURANCE

This policy serves as assurance that District guidelines for reimbursable meals are not less restrictive than regulations and guidance issued by the Secretary of Agriculture pursuant to the National School Lunch Act and the Child Nutrition Act.

NUTRITION EDUCATION

Nutrition education will be integrated into the instructional program through the health education program and/or the curriculum as aligned with the content standards of Maine's system of Learning Results. Nutrition education should focus on skills students need to adopt and maintain healthy eating behaviors. Students should receive consistent nutrition messages throughout the schools, including classrooms, cafeteria, and school-home communications.

NUTRITION PROMOTION

The school will support healthful eating by students and encourage parents/guardians to provide healthy meals for their children by providing consistent nutrition messages and information and by cooperation with other agencies and organizations.

PHYSICAL ACTIVITY

Camden Rockport Schools will strive to provide all students developmentally appropriate opportunities for physical activity through physical education classes, recess periods, and extracurricular activities (clubs, intramural and interscholastic athletics). School programs are intended to build and maintain physical fitness and to promote healthy lifestyles. The schools should encourage parents to support their children's participation in physical activities, including available before- and after-school programs.

MENTAL HEALTH

The district will provide resources to support students' mental well-being at school. The school will have some combination of counselors, social workers, and school psychologists on staff to support immediate needs and will connect families with resources if the need is chronic and requires outside support. The school will integrate a social, emotional learning component through its programming for all students, as well as occasional assemblies or other events, so that education in this arena is ongoing.

OTHER SCHOOL-BASED WELLNESS ACTIVITIES

The schools, with prior approval of the Superintendent/designee, may implement other appropriate programs that support consistent wellness messages and promote healthy nutrition, mental well-being, and physical activity.

The Board may approve policy regulations or guidelines for refreshments served at parties or celebrations during the school day or for food as rewards or may delegate the responsibility for such regulations or guidelines to administrators at the district or school level.

Camden Rockport Schools may develop programs that encourage staff to learn and engage in healthy lifestyle practices.

IMPLEMENTATION AND MONITORING

The Superintendent/designee shall be responsible for the oversight of implementation of the wellness policy in the schools, for monitoring efforts in the schools to meet the intent of this policy and achieve wellness goals, and for reporting to the Board on an annual basis.

Monitoring may include surveys or solicitation of input from students, parents, staff, and school administrators.

Reports may include, but are not limited to:

1. The status of the school environment in regard to student wellness issues
2. Evaluation of the school food services program and compliance with nutrition guidelines
3. Summary of wellness programs and activities in the schools
4. Feedback from students, parents, staff, school administrators and wellness committee, including suggestions for improvement in specific areas
5. Recommendations for policy and/or program revisions

Camden Rockport Schools will publicly disseminate information about school wellness activities, healthy eating and school nutrition, and the results of wellness program evaluations/monitoring on Camden Rockport Schools' wellness policy implementation efforts on the District's website or by other means, as appropriate.

The Board will review the wellness policy periodically to set or revise goals.

APPOINTMENT AND ROLE OF THE WELLNESS COMMITTEE

The District shall have school-based Wellness Committees that should include a variety of stake holders appointed by the Principal.

The Wellness Committees shall serve as an advisory committee to the schools in regard to student wellness issues and will be responsible for making recommendations related to the wellness policy, wellness goals, administrative or school regulations and practices, or raising awareness of student health issues. With the prior approval of the Superintendent/designee, the Wellness Committees may survey parents, students, and the community and/or conduct focus groups or community forums. Each Wellness Committee shall provide periodic reports to the Superintendent/ designee and, as requested, to the Board. The Wellness Committees shall conduct an assessment of the wellness policy every three years, at a minimum, to determine:

- Compliance with the Wellness policy;
- How the wellness policy compares to model Wellness policies;
- Progress made in attaining the goals of the Wellness policy.

The Wellness Policy will be posted on the District website and communicated annually to keep students, parents, staff, and the community informed of wellness initiatives.

WELLNESS GOALS

The Board has identified the following goals associated with student wellness:

1. Goals for Nutrition Education

- The schools will provide nutrition education that focuses on the skills students need to adopt and maintain healthy eating behaviors.
- The schools' nutrition education will be provided in a sequential, comprehensive health education program aligned with the content standards of the Maine system of Learning Results.
- Nutrition education will be integrated into other subjects as appropriate to complement, not replace, the health education program.
- Camden Rockport Schools will provide foods that meet or exceed the federal nutrition standards, adequate time for students to obtain food and eat, lunch scheduled at appropriate hours of the day (OR: as close to the middle of the school day as possible), adequate space to eat, and a clean and safe meal environment.
- Appropriate professional development will be provided for food services staff.

2. Goals for Mental Well-being

- A positive school culture is nurtured and intentional.
- The school day will be structured in a way that promotes a calm pace and atmosphere.
- Students will have timely access to mental health services when needed.
- Homework and grading practices will be meaningful, relevant, and enable students to rebound from mistakes.

3. Goals for Physical Activity

- The physical education program will provide students with the knowledge and skills needed to be physically fit and take part in healthful physical activity on a regular basis.
- Students will develop motor skills and apply them to enhance their coordination and physical performance.
- Students will demonstrate responsible personal and social behaviors in physical activity settings.
- The physical education curriculum will be aligned with the content standards of the Maine system of Learning Results.
- Physical education classes will keep all students involved in purposeful activity for a majority of the class period.
- Physical education classes will provide opportunity to learn for students of all abilities.
- The schools will provide a physical and social environment that encourages safe and enjoyable physical activity and fosters the development of a positive attitude toward health and fitness.
- The schools will provide facilities adequate to implement the physical education curriculum for the number of students served.
- The schools will promote efforts to provide opportunities for students to engage in age-appropriate activities on most days of the week in both school and community settings.
- The schools will provide opportunities for physical activity through a variety of before- and/or after-school programs including, but not limited to, intramural sports, interscholastic athletics, and physical activity clubs.
- Appropriate professional development will be provided for physical education staff and other staff involved in the delivery of such programs.

4. Goals for Other School-Based Activities

- Goals of the wellness policy will be considered when planning school or classroom parties, celebrations, or events.
- Parents will be encouraged to provide nutritionally sound snacks from home and food for classroom parties or events.
- Schools will encourage maximum participation in school meal programs.
- Schools will encourage parents and students to take advantage of developmentally appropriate community-based after-school programs that emphasize physical activity.
- The schools will encourage parents to support their children's participation in physical activity, to be physically active role models, and to include physical activity in family events.
- As feasible, school physical activity facilities will be made available after school hours for student, parent, and community use to encourage participation in physical activity.

- School administrators, staff, parents, students, and community members will be encouraged to serve as role models in practicing healthy eating and being physically active, both in the school environment and at home.
- Student organizations will be encouraged to engage in fundraising projects that are supportive of healthy eating and student wellness.
- School-based marketing of foods and beverages, such as through advertisements in school publications, school buildings, athletic fields, and other areas accessible to students should support the goals of the wellness policy.
- The schools are encouraged to cooperate with agencies and community organizations to support programs that contribute to good nutrition and physical activity.
